

Fulton Leadership Academy

ADVANCeD ACCREDITED

"Where Young Men Soar To Greater Heights!"

Mission: Fulton Leadership Academy is committed to a rigorous academic environment that empowers young men in grades 6-12 to become productive civic leaders. Within the offered curriculum, there is a focus on science, technology, engineering, and mathematics (STEM), and a thematic approach that integrates experiences with aviation and aeronautics.

Fulton Leadership Academy Mission Specific Goals

- During each year of the charter term, Charter School will increase the percentage of students participating in a student-to-student tutoring program by 1% over its baseline average or the Charter School will have at least 7% of its students participating in a student-to-student tutoring program.
- During each year of the charter term, 100% of Charter School's students will participate in at least one service learning project.
- During each year of the charter term, 100% of Charter School's students will utilize a personalized learning plan that incorporates progress monitoring and achievement growth.
- During each year of the charter term, 100% of Charter School's students completing the Twelfth Grade will complete a career portfolio.
- At least eighty percent (80%) of respondents who complete an annual student survey assessing Charter School's environment will rate the school as being a friendly place where they feel welcomed. This survey will be conducted in accordance with generally accepted survey practices and will be reported to the Board of Directors and all stakeholders annually.
